I want more actionBy TierraThe overall plot to the story is nice, however I felt like Milani's character could have been tougher. She has ambition of a Queen Pin, a boss, a rider, yet she seems super sensitive. Milani was a easy target, she has to do better. I wish it could have been more action in the story, there were parts where Milani should have been on high alert after her conversation with Shock and Breeze. If Baton Rouge were to be her streets, she needs to keep her ears to them.

Milani was born and raised in Miami, Florida around guns, drugs, and violence. At the tender age of twelve she was moved to Baton Rouge, Louisiana to live with her father after her mother was sentenced to thirty years in prison for trafficking drugs.For years her grandmother had taught her to lean towards her education to get whatever she wanted but the company she kept made it so hard for her to do that.When Milani father died from his sickle cell disease, Milani decided that working a nine to five job wasn't a option for her so she picked up where her mother and father left off.Milani met her boyfriend Caine through her late father. Her father taught Caine the ins and outs of the drug business, but somehow Milani tended to pick up more than Caine which turned Caine into a jealous, abusive boyfriend.It was fun to have Milani as his side kick in the drug business at first because she was loyal, smart, and the woman of his dreams, but when she showed everyone that she knew more about the business than him that wasn't a good look at all leading to him knocking her down however he knew how.While keeping her mouth closed for years and following Caine's orders she luckily hits jackpot when Caine is caught up in a murder case and sent to prison. While Caine is away Milani finds it only right to take over the streets that was meant to be HERS. She vowed to make her mother and father proud and she made a mental note to leave Caine in prison to rot!
